General Assembly

The General Assembly on June 8 at the Domaine W vineyard was a great success. The members were able to take stock of the achievements of the past year and discover the medium and long-term projects of their Association. The day ended with a visit to the vineyards and facilities of the estate, a tasting and a walking dinner. All under a beautiful sun and in a very friendly atmosphere. The GA report can be found on the private part of the website.

New member in the board

Welcome Melanie!

The Board of Directors is being strengthened with a new member: Mélanie De Boel from The Cookwear Company. Mélanie will take care of the organization of events and relations with supplier members.

Welcome to her!

Certified member of BAPP

- As explained during the GA, it is essential to promote the name and image of the BAPP in order to make it a guarantee of quality, both with your customers and your suppliers. We have created a Certified member of BAPP logo for you to put in your signature and on your website (see appendix). Use it and help spread the word about the BAPP!

I ♥ PRODUCT MEDIA

I ♥ TEXTILE

I ♥ PACKAGING

**Product information and legislation:
The underside of condoms (by AD
CORNER) - The condom is a really fun
"media product"! Nevertheless, the
condom is a medical device and is
subject to certain standards and rules
to be respected.**

First of all, it must be ensured that the end user will be in full possession of the instructions and information in the event of a problem. The condom must therefore be accompanied by its instructions for use in the language(s) of the users. It is essential that the condom is not damaged during distribution and transport. The personalized condom pouch fulfills this function perfectly, it protects the primary packaging and includes instructions for use. Finally, it must be ensured that condoms comply with standards and that they are well referenced:

1. The CE logo must of course be affixed.
2. The lot number and expiry date are indicated on the primary and secondary packaging.

3. The factory and the European representative must also appear on the packaging.

The manufacturer remains responsible for his product until it is used. He must therefore certify the packaging procedures at the service provider who takes care of it. It is also preferable that the service provider be ISO 13485 certified for the handling of medical devices. For Belgium, the distributor who sells condoms must be registered with the Afmps (Federal Agency for Medicines and Health Products) and from 40,000€ of purchase is subject to a tax aimed at financing the activities of the FAMHP in the field of medical devices.

Printing on the foil of the condom:

Printing on the primary packaging is possible as long as the process remains cold so as not to heat the latex. Here too, the manufacturer must have carried out tests and give its consent to the service provider.

Latex quality:

The condom is a health product, so it is better to have a quality product. Products that are too cheap generally lack lubrication or flexibility in the latex, more expensive products often fall under marketing positioning but whose quality is generally assured. If you hesitate between different suppliers/brands, ask for samples, open them and observe, smell, mistreat the condom in order to detect any defects or qualities.

New members

The BAPP is happy to welcome 4 new members.

Distributors :

NEWWORK BELGIUM

Newwork Belgium has specialized in the supply, printing and embroidery of textiles, professional, advertising and sports for 35 years. We are a manufacturer of medical, paramedical and horeca clothing. We offer personalized goodies. We have a tactical department for police and security companies as well as airsoft replicas and accessories.

Suppliers :

treebytree

We are a social enterprise whose mission is to turn "corporate gifts" into "gifting back". By empowering thousands of businesses, their employees and customers, we are using the power of many to bring back one billion trees before 2050. With these trees, we are giving meaningful gifts that are restoring degraded lands in Africa and ultimately, cool the planet.

We've made tree donation an extraordinary digital experience. Turn the corporate gift into a return gift with a personalized and 100% sustainable gift. So what are you waiting for? Offer a tree. Grow

treebytree

The gift that keeps on growing

a forest. Make
an impact.

JK PRODUCTS

JK Products specializes in personalizing your (promotional) product in the broadest sense of the word. This can range from a standard product that we produce in your customer's colors in their own packaging, to the development of a completely own product. If you have any questions, do not hesitate to contact us.
