# BAPP survey

The General Assembly at Domaine W allowed members to give their opinion on the operation and projects of their Association. We have listed the various comments and remarks and have summarized them in a questionnaire sent at the beginning of July. Thus, the BAPP will be able to highlight the points essential for its members and draw the main lines of its next actions.

Of course, each member is invited to participate in the different areas that will be developed. The results of our survey will be available soon!
